

Amendments to the Claims

Claims 1-19 (canceled)

Claim 20 (canceled)

Claim 21 (currently amended): A method of directing the beam pattern of at least one light emitting diode, comprising the steps of: placing a primary lens in the beam path of each of the light emitting diodes and placing a moveable zoom lens in the directed beam pattern from the at least one primary lense and varying the distance between the at least one primary lens and the moveable zoom lens to focus the beam pattern of the light emitting diode.

Claims 22-35 (canceled)
